WORK EXPERIENCE

Lazarus Design Team – Charlotte, North Carolina, United States
Web Developer Aug 2023 – Present
Provide technical support for WordPress by troubleshooting themes, plugins, and performance issues while developing and customizing WordPress themes and blocks for optimal functionality and responsiveness. Style websites using Tailwind CSS to ensure clean and scalable designs. Manage and configure WooCommerce and Shopify stores, including product setup, payment gateway, advanced filtering, checkout optimization, and third-party plugin integrations to enhance functionality.

Conrado.tv – Freelance
Web Developer Sep 2016 – Aug 2023
Implemented robust frontend and backend solutions for web applications utilizing PHP, jQuery, MySQL, HTML5/CSS3 and Bootstrap within the WordPress platform.

Desoft – Havana Cuba
Web Developer Oct 2012 – Sept 2016
Developed, customized, and maintained Drupal websites, ensuring exceptional performance, security, and scalability.
